

STOP GATWICK EXPANSION

Please respond to Gatwick's Consultation on its expansion plans in order to prevent our town being blighted by more aircraft, noise and pollutants. The deadline for Consultation responses is 1st December 2021 so have your say by responding via this link:

<https://www.gatwickairport.com/business-community/future-plans/northern-runway/>

Some headline impacts of the proposed expansion are:

- Gatwick is seeking planning permission to convert its standby runway for regular use which will substantially increase the number of aircraft overflying our town throughout the day and night. This is on top of planned increases to the usage of Gatwick's main runway.**
- This is dreadful news both for residents and for local businesses dependent on tourism and will result in a permanent change to the character of our town.**
- It will be an environmental disaster as Gatwick's plans will result in a 50% increase in CO2 emissions and a significant increase in pollutants affecting our town.**

For more information about Gatwick's expansion plans and the Consultation, visit our website:

www.twaang.net

To help you respond to Gatwick's Consultation, the **Gatwick Area Conservation Campaign Group** (GACC) has produced a range of suggested responses to the Consultation which can be found at:

www.gacc.org.uk

Please act now to protect Tunbridge Wells from Gatwick's unacceptable expansion plans by responding to the Consultation before the 1st December deadline and join us in protecting our town
